Construction Update No. 35

*Two More Concrete Pours;  
Scaffolding to Shift*

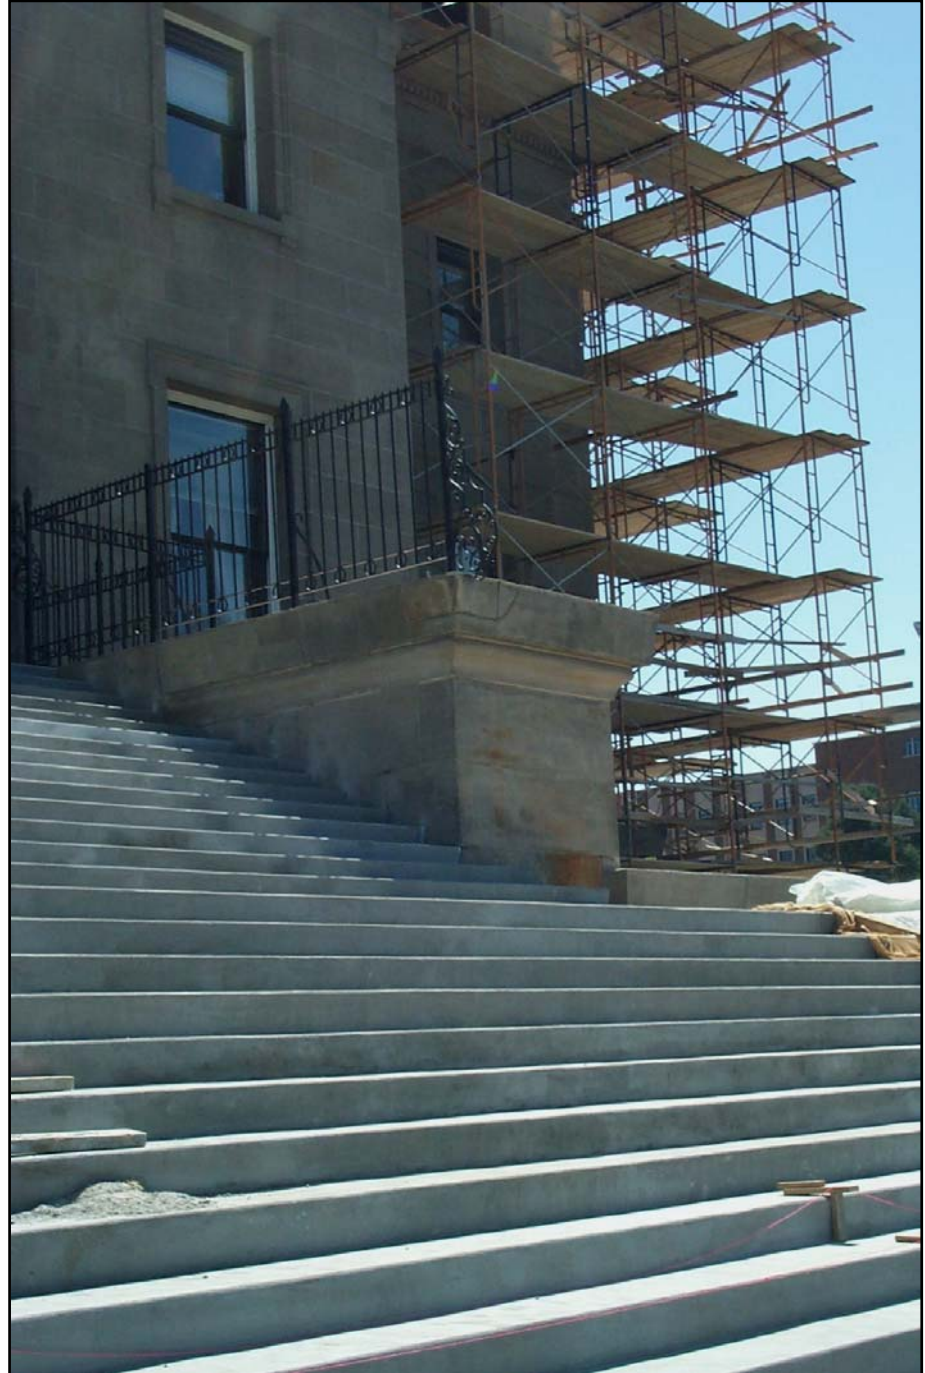

## West Stairs Close to Completion

**Ed Welsh, McAlvain Construction Superintendent**, tells us that they will be pouring two more sections of the west steps this week and that will finish the concrete pouring. They began pouring west step concrete the week of March 11.

McAlvain will also patch some sidewalks this week as they wind down on concrete work (*see photo at right of the west steps and south scaffolding*).

## East & South Scaffolding Coming Down this Week

This week may be your last chance to see the east and south scaffolding, since the sealant is finished and workers will begin to remove the scaffolding. Next they will assemble the scaffolding on the west side, and repair cracked stones and joints on that section of the Capitol Building.
